BAY COUNTY LIBRARY SYSTEM

Annual Address

Dear BACF Friends and Supporters,

The success of the Bay Area Community Foundation in 2010 reflects our vision to serve as the leading philanthropic resource to improve the quality of life in Bay and Arenac Counties. We've accomplished this through growth in programs concerning education and youth development, collaborative grant making with local companies and by coordinating our informational efforts with local and state wide groups.

It was also a year highlighted by the generosity of Bay and Arenac County residents who care about the future of their community. Despite the economic conditions that characterized 2009 and early 2010, we were pleased to report that the recovery in the financial markets was reflected in the gains in the Foundation's investment portfolio.

We continue to address community challenges from different perspectives.

- \$810,000 was awarded to local nonprofit organizations for programs and projects supporting our community through investments in areas such as the arts, the environment and human services.
- The Youth Advisory Committee provided a \$55,000 grant to bring Challenge Day, a peer pressure and bullying awareness program, to over 1100 Bay County middle and high school students.
- The Foundation received \$100,000 from two grants for the Bay Commitment College Access Network College Resource Center. Over \$440,000 was awarded in scholarships to support students attending college.

We anticipate an exciting and busy 2011. You, our friends and supporters, continue to inspire us. On behalf of the Bay Area Community Foundation Board of Trustees, thank you for your continued participation in creating a Thriving Bay Area!

Warm Regards,

Debra K. Lutz

Through the collaborative efforts of the BACF, business and education leaders, this network assists students and families find their way through the maze of college requirements, applications, and funding while helping high school students transition to college. BCAN was inspired by the belief that having access to higher education is an investment in our children and in our community's future. Continuing education benefits the person, the vibrancy of the area's economy, and the quality of life for all citizens

There are three key components making this program a success:

1. College Preparation Services Office Liaisons, located in each public school district, assist first-generation and under served students, along with their families, to understand the realities of seeking post-secondary education.
